DETAILED ACTION

1. Please find the corrected examiners amendment below:

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Andrew Harry on October 27, 2010.

The application has been amended as follows:

3. In claim 1, line 1, delete --for providing information to a terminal connected through a network in accordance with a request sent from the terminal, the information apparatus--. Between lines 3 and 4 add a new limitation reading -- a network interface configured to provide information to a terminal via a network in accordance with a request received from the terminal; --. In line 4, add --at the information service apparatus-- between --panel-- and --configured--.

4. In claim 8, line 3, replace --configured to send information to said terminal through said network in accordance with a request sent from said terminal, wherein said information service apparatus comprises:-- with --comprising--. Between lines 5 and 6

add a new limitation reading -- a network interface configured to provide information to the terminal via a network in accordance with a request received from the terminal; --. In line 6, add --at the information service apparatus-- between --panel-- and --configured--.

5. In claim 9, line 2, delete --connected to said information service apparatus through a network in accordance with a request sent from said terminal--. Between lines 5 and 6 add a new limitation reading -- receiving a request from the terminal connected to the information service apparatus through a network; --.

Allowable Subject Matter

6. Claims 1-6, and 8-14 are allowed. The following is an examiner's statement of reasons for allowance:

7. Consider claim 1, the prior art of record, specifically Heiny and Seilder, do not specifically teach alone or in combination the limitations of "when said language correspondence judgment part determines that said information in the language designated by said discrimination information cannot be provided, said language determination part acquires language data corresponding to the language selected by the selection received at said interface and currently used for displaying said operation information on said operation panel and selects said acquired language data as language data of said language used for providing said information" where the terminal

is connected to the information service apparatus by a network and the operation panel is located *at the information service apparatus*. Therefore claim 1 is allowable.

8. Claims 8 and 9 are allowable as well as they contain similar limitations as claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
